

Mirr. can you hear me?
 Are you even listening?
 Can I get through?
 There's a part of me that's desperate for changes
 Tired of being treated like a pawn
 But there's a part of me that stares back from inside the mirror
 Part of me that's scared I might be wrong
 That I can't be strong
 I've been afraid, never standing on my own
 I let you be the keeper of my pride
 Believed you when you told me I was nothing on my own
 Listen when I say, I swear it here today
 I will not surrender; this life is mine!
 Amazing how you conquered me, chained me in servility and
 made me see
 The world the way you told me to
 But I was young and didn't have a way to know the truth
 Born to live your legacy
 Existing just to fill your needs, a casualty
 Of this so-called family that you have turned into a travesty
 But I don't intend to suffer any longer
 Here's where your dominion falls apart
 I'm shattering the mirror that kept me split in pieces, that stood
 between my mind and heart
 This is where I'll start
 I'm not your pet, not another thing you own
 I was not born guilty of your crimes
 Your riches and your influence can't hold me anymore
 I won't be possessed
 Burdened by your royal test
 I will not surrender
 This life is mine
 Shame that it took so long to rescue me
 From the guilt you used to tie me to your family tree
 I guess your training failed, you're not in charge I'm free
 Your patriarchal prison won't hold me
 Now this conversation's finally over
 Mirror mirror, now we're done
 I've pulled myself together now, my mind and heart are one

IGNITE

**THE MORNING
BOLLOWS**

You don't know what it's like to live in shadows
Always regretting what you've done
Knowing it's always easier to run
Than to face the things you've done

You can't have to spend your life going backwards
You can't have to spend your life going forwards
You can't just wish it away
You can't just wish it away
The past is the past, it will never change
That was before, this is now
And when we have a chance to make it better, it will
Oh, but I will not bemoan, one more hard
But listen, so am I
I made my choice for me
So here you stand to me

I know I won't leave you
I'll follow you like a morning fellow
One thing I won't do
One thing I won't do
Is to let you go alone to face the night!
Hard to know where to go when your life is a disaster

Trying to start all over again
So much shame, so much regret
I'm not a game you can play to get even
I'll make mistakes but we'll need to move on
I know that you hate where you've stayed
Forgiving yourself is the only way
Just look ahead, yesterday is gone
You know you think you're being selfish, but you're not

I refuse to work another's pain again
The pain is on you, you snit me out
I'm not your own
No matter what

You'll never walk alone
See you'll never understand what I feel, what I see
What's going through my mind, how it feels being me
All the struggles, all the fights, long days, longer nights
Trying to search for this happiness lost in the light
But it seems that it's all just out of my sight
Just out of reach, the turbulence, the chaos in my life
Can't push or pull it, stuck up in this hell pit
Cycle of pain, all the stress in my brain
I'm just trying to maintain, cause I'm going insane
But no matter what I do, the cries go on and on
Yet I still believe in you, every breath every word
Every smile, every glance could be another chance
So until that time, I'll love that that is life
So until that time, I'll love that that is life
So until that time, I'll love that that is life

Well, then, my dream
Well, then, my dream
This is where I lay waste and you go home bleeding
This is where I lay waste and you go home bleeding
Now you're heading for a beating
Now you're heading for a beating
Didn't mother warn you?
Didn't mother warn you?
Beneath the ground, how you'll end this day
You're a big mess

Cause I'm relentless, fire today
Crash and burn, crash and burn
Some lessons are just hard to learn
Some lessons are just hard to learn
That sad things (tomorrow) will fade
That sad things (tomorrow) will fade
Yet every misshapen grain
Yet every misshapen grain
Suffers the judgment and pain
Suffers the judgment and pain
There's a beauty that's greater than pure symmetry can contain
So let's start the dance, into these eyes of fire

You're going to see this, this right
You're going to see this, this right
You don't want to mess with me
You don't want to mess with me
I'm something higher, your miserable plight
I'm something higher, your miserable plight
Soon you'll become your mistake of a life
Soon you'll become your mistake of a life

You'll watch yourself suffer
You'll watch yourself suffer
You'll watch me light
You'll watch me light
Usually, I'd devastate
Usually, I'd devastate
This time I'd annihilate
This time I'd annihilate
Messin' with my family
Messin' with my family
Means that soon, you're not
Means that soon, you're not
Looking pretty battered
Looking pretty battered
Won't be long until I end this game
Won't be long until I end this game

I'm feeling restless
I'm feeling restless
Watch me burn as you go down in flames
Watch me burn as you go down in flames
And wait (or the pages) to turn
And wait (or the pages) to turn
Play both sides (scathing eyes)
Play both sides (scathing eyes)
The truth you could not
The truth you could not
Has gone through the hardship and shame
Has gone through the hardship and shame
That's born of standing apart
That's born of standing apart
And that's just so loved
And that's just so loved

dominate, desecrate, leave you in a foul state
dominate, desecrate, leave you in a foul state
Why you in the end, I don't know, I don't know
Why you in the end, I don't know, I don't know
Ask you to understand when I'm pissing on your ashes, son
Ask you to understand when I'm pissing on your ashes, son
Blood you, broken nose, screw it, it's a blood bath
Blood you, broken nose, screw it, it's a blood bath
Try to get away but there's no escaping Alcatraz
Try to get away but there's no escaping Alcatraz
Look what you do, blood and ice water duster
Look what you do, blood and ice water duster
Reach into my barrel, tricks, hit you with the backsticker's ever
Reach into my barrel, tricks, hit you with the backsticker's ever
Now! gotta see, do you really want a piece of me?
Now! gotta see, do you really want a piece of me?
Hope you're ready for the pain, suffer when I hit your brain

The songs that Jeff Williams writes for RWBY really capture the personalities of the characters in the show. I love these characters for how relatable/ amazing they are. These are only some of the songs for them. Each songs has so much emotional energy behind it.

Thank you Monty Oum for creating RWBY.

Thank you Jeff Williams for creating the insange soundtrack.

Thank you Rooster Teeth for creating this show.
